FOR CALIFORNIA PATIENTS ONLY IMPORTANT INSTRUCTIONS – PLEASE READ!

Physicians – Staple this sheet to your lab requisition form for stool/ enema infant botulism diagnostic testing

Instructions for Laboratory Personnel:

- 1. Keep the specimen **refrigerated** at all times. <u>Do not freeze.</u>
- 2. Ship the specimen in a styrofoam box with cold-packs. Do not use dry-ice.
- Do not delay shipping (even if specimen is of small quantity or appears dilute) –
 definitive diagnosis of the patient requires prompt laboratory analysis. Additional
 specimens may be requested if necessary. Call Infant Botulism Laboratory at
 510-231-7676 with any questions regarding specimen quantity or quality.
- 4. Expedite the specimen via "Priority Overnight" (e.g. FedEx) or equivalent shipping. Ship **Monday through Thursday only**; CDPH Specimen Receiving is closed over the weekend, therefore Saturday/Sunday deliveries cannot be accepted. Bill shipment to your facility's account number.
- 5. Please visit our website <u>www.infantbotulism.org</u> for more information.

Ship to:

California Department of Public Health Specimen Receiving, Room B106 850 Marina Bay Parkway Richmond, CA 94804

Attn: Jason Barash, IBTPP Lab

Please do not hesitate to contact the lab at 510-231-7676 with any questions.
